

## Terms Parser - Streamlit MVP

### Overview:

-----

A tool designed to rapidly analyse issue terms documents with clause extraction, confidence scoring, and highlighting.

### How to Use:

-----

1. Upload a PDF issue terms doc.
2. Text is parsed and previewed.
3. Confidence and clause output is displayed.

### Deployment:

-----

- Local Python + Streamlit
- GitHub-ready repo
- Streamlit Cloud deployable

### Prepared by:
